

DIGITAL CHOICE BOARDS

Thank you for your interest in this FREEBIE! It is a simple, effective way to keep all assigned work organized and in one place. You may choose to assign work daily or weekly, and there is an editable template for both. Simply edit the assignments, add hyperlinks so students can easily access the websites and documents, and post in Google Classroom or on email.

If you are posting work in Google Classroom, be sure to select “**make a copy for each student**” before you post. This way, each student gets a copy of their own to edit and color... instead of everyone working on the same document.

Included in this download are:

- Link to 1 DAILY gameboard template for student assignments (ideas included!) and student instructions are on the board
- Link to 5 WEEKLY templates (choose which one works best for you!) and 1 page of student instructions on slide #2

Please remember to leave **FEEDBACK!** Any feedback is **GREATLY** appreciated! **Since this is freebie, please note that requests for individual edits cannot be honored.** Please check my Instagram highlights to see the product in action.

Be sure to [follow my TPT store](#) for updates on new products and FREEBIES!

If you post pictures to Instagram or Facebook, feel free to tag me (@aprimarypeople) so we can see how you are using these boards in your digital classroom!

Enjoy!
